The Texas Department of State Health Services, Health Assessment and Toxicology Programs will be in the Channelview area January 27th through January 30th. We will be conducting community outreach activities related to the San Jacinto River Waste Pits site as well as the DSHS fish consumption advisory that is in place for the San Jacinto River, Houston Ship Channel, and Upper Galveston Bay. We will be going door-to-door disseminating the attached flyers. In addition, we will be attending an EPA sponsored community meeting, Thursday, January 30th at the Highlands Community Center, [604 Highland Woods Drive, Highlands, TX 77562](#). There will be an informal meet and greet open house from 6:00-6:30 pm and then the meeting will be held from 6:30-8:00 pm.

If you receive calls from community members that would like to speak with us you may reach us at 512-981-8397.

Thank you

Tina Walker
